

CASE STUDY

Planned Preventative Maintenance

Property:

Retail units with maisonettes above

Location:

Gillingham, Kent

Client:

Private Property Owner

Services Provided:

Defect Analysis

Contract Administration

Contract Value:

Summary:

Alexander Harris were appointed by the property owner to investigate and undertake repairs to the existing proprietary concrete gutter system. A number of options were proposed with budget costs. A proprietary gutter lining repair system was used to line the existing gutters to alleviate water ingress into the properties and prolong the service life of the existing gutters.
